

architects in schools

architects in schools is a unique program providing elementary schools the opportunity to work with practicing professional architects and designers in curriculum-based activities. The **architecture foundation of oregon** coordinates the formation of exciting partnerships between architects and area schools.

architects in schools is open to grades 3 through 5 and is offered to schools at no charge. Continuing Education, Community Service and IDP Credits are available.

Please join us for an informational gathering:
Where the Sidewalk Begins
233 Commercial Street NE, Salem
6:00pm
Wednesday October 12, 2011

We would love to have you learn more about this wonderful program!

Please RSVP and direct any questions to:
